

AMENDMENT TO SPECIFICATION

In the Specification:

Please insert on page 1, line 3, the following paragraph:

This application claims the benefit of Korean Patent Application No. 1999-13650, filed on April 16, 1999, which is hereby incorporated by reference for all purposes as if fully set forth herein.

CROSS REFERENCE

This is a continuation of U.S. Patent Application Serial No. 09/551,404 filed on April 17, 2000.

Please replace the paragraph beginning at page 2, line 2, with the new paragraph as follows:

The connectors 55 and [56] 65 are generally installed on the front surface or on the rear surface of the PCBs 50 and 60. This increases the thickness of the LCD and makes it difficult to achieve a compact size LCD.

Please replace the paragraph beginning at page 6, line 17, with the new paragraph as follows:

Referring to FIG. 4, the liquid crystal display panel 202 compromises a TFT substrate 240 and a color filter substrate 250. The filter substrate 250 is smaller than the TFT substrate 240 and faces the TFT substrate 240. The TFT substrate 240 includes a gate [261] 241, a data line 242, a thin film transistor (not shown) and a pixel electrode (not shown).
